

## VPK Guidance – Required State-Approved COR Advantage Assessment Items for School Year (SY) 2025–26

**Audience:** This guidance is for voluntary prekindergarten (VPK) programs using developmentally appropriate state-approved assessments.<sup>1</sup> Other early learning programs may benefit from understanding the assessment requirements for VPK, especially those that partner with VPK or operate within the same district or school. Early Childhood Special Education (ECSE) programs that elect to submit assessment data to MDE to obtain Child Outcome Summary (COS) ratings must complete and submit data for all assessment items in all domains of learning for ECSE students, including ECSE students who participate in VPK. Head Start programs must meet the federal requirements around assessments (Head Start Program Performance Standards 1302.22). Other early learning programs, like parent-aware rated child care programs, may find this guidance valuable.

**Purpose:** To inform VPK programs of the School Year 2025–26 minimum assessment items that must be completed to support successful learners. For SY 2025–26, Minnesota is requiring items that align to five domains of learning: Approaches to Learning (ATL); Language, Literacy, and Communications (LLC); Mathematics (MATH); Physical and Movement (PHYS); and Social Emotional (S&E). The five domains of learning required by VPK in SY 2025–26 represent a whole child approach to learning and align with (1) the domains that are required to be assessed by School Readiness programs and (2) the domains a Parent Aware-approved assessment must cover.

**NOTE 1:** This guidance represents the *minimum* number of items that a VPK program must use. Additional domains and items may be advisable based on the needs of your program and students, particularly students with disabilities and students for whom there are developmental concerns.

**NOTE 2:** Below are the required items that a VPK program must use out of the total number of items, for the COR Advantage assessment tool:

- COR Advantage: 24 items out of 34 items

**NOTE 3:** DCYF no longer supports paper/pencil data submissions; a VPK program **must** use the online version of their assessment tool of choice to submit assessment data. Send questions or concerns about data submission requirements to Alex Verhoye at [alex.verhoye@state.mn.us](mailto:alex.verhoye@state.mn.us) or to [dcyf.els@state.mn.us](mailto:dcyf.els@state.mn.us).

---

<sup>1</sup> VPK programs are required to use commissioner-approved formative, developmentally appropriate assessments, including the use of an approved assessment to collect data when a child enters and again before the child leaves the program (program ([Minn. Stat. § 142D.08](#))).

**Table 1: COR Advantage Items Required for VPK Programs in SY 2025–26**

The table below shows which COR Advantage items VPK programs must use in SY 2025–26. The items that must be completed are aligned to five domains of learning: ATL, LLC, MATH, PHYSICAL, and S&E. Administrators from different early learning programs within a district/school are encouraged to discuss the similarities and differences in which items are used by each program. To support successful learners, it may be beneficial to use additional items and domains for students receiving special education and related services or for whom there are developmental concerns.
